

NH NOW PROJECT NAMING CONVENTIONS

February 1, 2019

Individual Pictures:

Catalogs or Folders on the google drive

*The next review number is used to indicate whether this catalog or folder has already been reviewed. As of Feb 1 2019, only Seacoast (SC) and Lakes Region (LR) have been reviewed, so if your photos were part of those reviews, then all NEW photos would go in a catalog or folder numbered 2. Every other region have not been reviewed, so their catalogs would all be numbered 1. This is to avoid reviewing photos which have already been reviewed. If you did NOT submit photos for the first review, you would STILL USE 2 as the review number so your photos would be reviewed in the second review

YOU DO NOT HAVE TO UPLOAD BOTH JPG AND RAW PHOTOS. ONLY UPLOAD RAW PHOTOS (which includes TIFF files if not uploading a lightroom catalog) We continue to learn in this project, and we now have a way to automatically download RAW photos and catalogs, eliminating the need for you to create JPGs

If you have any questions, please drop us an email- project@NHSPA.org
